

PORTABLE BASKETBALL SYSTEMS

Portable basketball systems are a popular choice when ceiling or wall mounted systems are impractical or impossible. All IPI portables are padded for player protection, roll on floor-friendly casters for transport and storage and have enclosed ballast compartments. Choose from our wide variety for international competition to elementary school use and anywhere in between. Call for assistance to select the portable that best fits your program's needs.

For details on our complete line of portable basketball systems, visit the web at www.bisoninc.com.

T-Rex Americana™

Designed for the highest level of play including Division I NCAA, **Americana** features a 6" square, heavy-wall beam with laser cut support structure for rigidity and an 8' safe play area. Other features include integrated ballasted base, 3" thick front base padding system, 180° breakaway goal and spring counter balanced automatic base control transport and setup system with eight, 8" diameter, 2" wide non-marking wheels. Order **T-Rex International** when internationally preferred 10'8" safe play area is desired.

Bison T-Rex 96

A great balance between competition level features and budget conscience design. T-Rex 96 has a full 8' safe play area and is suitable for aggressive play at all levels where 10'8" safe play area is not required. Order **T-Rex 66** for same portable but with 5'6" safe play area.

Bison T-Rex 54 SR

Many of the same features as larger T-Rex portables, including a full size competition glass backboard but with a reduced base size and 4'6" safe play area. Great for rec center and side court play. Order **T-Rex 54 JR** for same portable but with 54" wide glass backboard instead of 72" wide.

Bison BA853G

The downsized 54" x 36" tempered glass backboard, pull down lever-activated transport system and infinite rim height adjustability from official 10' to as low as 5' make this a versatile portable for facilities where players of all ages play.

Bison BA833

Multipurpose facilities can add basketball programs easily and affordably with this portable system with a 48" x 32" clear acrylic backboard and breakaway rim.
